

Fluid Line Technology

- Established in 1989
- Headquartered in Chatsworth, CA
- Manufacturer of Sanitary & Ultraclean Components

Manufacturing Capabilities

- Polishing
- Metal Forming
- Machining
- Work with all Metal Alloys – 316L or Better

Stainless Steel Products

- Diaphragm Valves
- Sample Valves
- Filter Housings
- Thermowells
- CPM Tee
- Sample Coolers
- Heat Exchangers
- Manifolds
- Dip Tubes

AcquaSeal® Ultra-Clean Manual Diaphragm Valve

- All stainless steel construction
- All machined surfaces
- ASME-BPE 2014 version compliant
- Patent bonnet feet design
- Kaltraz™ diaphragm option

AcquaSeal® Ultra-Clean Air-Actuated Diaphragm Valve

- All stainless steel construction
- All machined surfaces
- ASME-BPE 2014 version compliant
- Patent bonnet feet design
- Kaltraz™ diaphragm option
- Featured actuator retainer design reduce foot print
- Actuator internal travel stop

Sample, Bleed, & Vent Valves

Single Use Products

- Single Use Sample Valve
- Pinch Valve
- Q-Lock Piping System
